---

## PROFESSIONAL SUMMARY

Aspiring Software Developer with strong fundamentals in frontend development and modern JavaScript ecosystems. Experienced in building responsive, interactive, and product-level UI systems. Focused on creating real-world applications with smooth user experience and performance optimization.

## TECHNICAL SKILLS

**Languages:** C++, C, Python, JavaScript

**Frontend:** HTML5, CSS3, React.js

**Libraries & Tools:** GSAP, Chart.js, Git, GitHub

**AI & Tools:** Generative AI, Prompt Engineering

## PROJECTS

### Mac-OS Web Interface Clone

<https://anandraj981-max.github.io/mac-os/>

- Built a fully interactive macOS-inspired interface using React
- Implemented draggable and resizable windows (react-rnd)
- Developed app-like components (Notes, Music, GitHub viewer)
- Focused on real OS-level UX with smooth animations and UI logic

### Smart Productivity OS

<https://github.com/anandraj981-max/productivity-dashboard>

- Productivity dashboard with task and workflow system
- Designed like a mini operating system for managing daily tasks

### Travelling Website

<https://github.com/anandraj981-max/responsive1anandraj>

- Responsive travel website with modern UI design
- Mobile-first approach using HTML and CSS

## EDUCATION

Bachelor of Information Technology — Ranchi University (Expected 2029)

Intermediate — Marwari College, Ranchi (2022–2024)

## CERTIFICATIONS

- 1 freeCodeCamp — Responsive Web Design (2026)
- 2 IBM — Generative AI Prompt Engineering (2025)
- 3 Microsoft — Generative AI for All (2025)
